Uneeb Ahmed

Supply Chain Analyst

MO, USA | +1 470 841 3016 | uneebahm@gmail.com | LinkedIn

SUMMARY

Supply Chain Analyst with **7+ years of experience** in supply chain operations, demand planning, logistics analytics, inventory optimization, and transportation management across CPG, infrastructure, and global distribution environments. Expertise in S&OP, forecast accuracy, supply-demand planning, freight cost optimization, warehouse operations, vendor management, and international logistics compliance. Skilled in SAP MM/SD, SAP IBP/APO, SQL, Python, Power BI, and ERP systems to improve service levels, reduce transportation costs, optimize inventory performance, and support data-driven supply chain decision-making across US and global markets.

SUPPLY CHAIN & ANALYTICS SKILLS

Supply Chain & Planning Analytics: Demand & Supply Planning, S&OP, Inventory Control, Inventory Optimization, Inventory Forecasting, Safety Stock Planning, Production & Distribution Planning, Forecast Accuracy, Demand Forecasting, Capacity Planning, Network Optimization, Procurement Analytics, Supply Chain Optimization, Predictive Analytics, Scenario Planning, Supply Chain KPIs

Logistics & Cost Analytics: Transportation & Freight Cost Analysis, Vendor & Carrier Performance, SLA Monitoring, Transit Time Analysis, Route Optimization, Landed Cost Optimization, Cost-to-Serve Analysis, Warehouse & Distribution Analytics, Import-Export Compliance, HS Code & Tariff Compliance, International Logistics, Shipment Tracking, Freight Operations, Root Cause Analysis

Data Governance & Reporting: KPI Reporting, Variance Analysis, Data Validation, Reporting Automation, Executive Dashboards, Forecast & Inventory Reporting, Operational Analytics, Business Intelligence, Data Visualization, Power BI, Tableau, SQL & Python Analytics, Performance Monitoring, Data Quality Assurance

Technical Skills: SAP MM/SD, SAP IBP/APO, ERP Systems, TMS, SQL, Python, Pandas, NumPy, Scikit-Learn, Power BI, Tableau, Snowflake, SQL Server, Advanced Excel, Pivot Tables, VBA, Forecasting Tools, Data Modeling, ETL Workflows

Professional Strengths: Cross-functional Collaboration, Stakeholder Management, Project Management, Process Improvement, Lean Six Sigma, Kaizen, Problem Solving, Continuous Improvement, Strategic Planning, Agile Environment, Operational Excellence

PROFESSIONAL EXPERIENCE

PepsiCo, MO, USA **Aug 2025 - Present**

Supply Chain Analyst

- Analyzed 50M+ sales, inventory, and shipment records to improve replenishment planning and regional distribution performance.
- Tracked OTIF, fill rate, and inventory KPIs, improving product availability by 8–12% across distribution operations.
- Reinforce S&OP activities through demand forecasting, supply analysis, and production planning aligned with operational requirements.
- Conserve SQL and Python reporting models for logistics monitoring, forecast tracking, and inventory performance analysis.
- Automated KPI reporting workflows, reducing manual reporting effort by 40% and improving operational reporting consistency.
- Developed Power BI and Tableau dashboards to monitor transportation metrics, inventory trends, and warehouse performance.

Digital Ocean, Karachi, Pakistan **Mar 2023 - Sep 2024**

Supply Chain & Logistics Manager (Infrastructure) | Infrastructure Supply Chain

- Oversaw procurement, inventory planning, warehouse coordination, and supplier management across multiple operational locations.
- Improved SAP-based demand forecasting accuracy by 15%, reducing excess inventory and supporting replenishment planning.
- Revisited inventory movement, lead times, and supply constraints to improve operational responsiveness and planning efficiency.
- Maintained SAP inventory records and warehouse reporting, ensuring 99% inventory accuracy across logistics operations.
- Evaluated freight expenses, carrier utilization, and transportation performance, reducing logistics costs by 12%.
- Coordinated with procurement and finance teams to support vendor reporting, supply planning, and operational risk analysis.

Signalytics, **Dec 2022 – Apr 2023**

Logistics Specialist

- Arranged shipment scheduling, carrier communication, and logistics tracking supporting domestic and international deliveries.
- Sustained shipment documentation, inventory updates, and transportation records to improve reporting accuracy and operational visibility.
- Monitored delivery timelines and logistics activities, resolving shipment delays and supporting SLA compliance requirements.
- Fostered freight coordination and warehouse communication activities across daily logistics and distribution operations.

- Examined shipment data and transportation reports to support inventory movement tracking and logistics planning activities.
- Launched carrier coordination and operational reporting processes to improve shipment execution and service reliability.

Novatex Limited, Karachi, Pakistan Jul 2022 - Feb 2023
Senior Assistant Manager - Global Supply Chain Analytics

- Aided global supply planning by aligning procurement, inventory, and demand forecasts across regional operations.
- Managed S&OP reporting and forecast tracking, improving forecast adherence by 10% across business units.
- Expanded logistics and inventory KPI reporting to strengthen operational visibility and supply chain performance monitoring.
- Improved reporting efficiency by 30% through analytics solutions supporting warehouse and logistics reporting activities.
- Revised warehouse utilization and inventory movement data, reducing excess inventory levels by 8%.
- Supported third-party logistics reporting and shipment visibility initiatives across international distribution operations.

Dispatch & Logistics | Leverify LLC, Islamabad, Pakistan Dec 2021 - Jun 2022
International Logistics Analyst

- Reviewed international freight expenses and transportation reports, reducing shipment costs by 10% through carrier and routing analysis.
- Appraised carrier performance, transit timelines, and routing options to improve shipment reliability and delivery efficiency.
- Organized import shipments with global vendors while ensuring compliance with shipping documentation and operational requirements.
- Verified HS codes and tariff classifications supporting international trade compliance and customs processing activities.
- Investigated shipment discrepancies and delivery claims to improve logistics execution and customer service performance.
- Prepared logistics reports and shipment documentation supporting inventory movement tracking and transportation operations.

Orient Overseas Container Line (OOCL), Karachi, Pakistan Mar 2018 - Nov 2021
Assistant Logistics & Finance Analyst | Financial Controls

- Brace shipment costing, freight analysis, and logistics budgeting activities across regional transportation operations.
- Investigated logistics and financial data against operational targets to support reporting accuracy and performance evaluation activities.
- Assisted shipment tracking, logistics reporting, and operational coordination across daily supply chain workflows.
- Preserved shipment records and logistics documentation supporting communication between finance, operations, and external stakeholders.
- Corrected transportation workflows and logistics processes to identify improvement opportunities supporting operational efficiency.
- Helped freight reconciliation, shipment validation, and reporting activities for international logistics and shipping operations.

EDUCATION

M.S. in Business Analytics Management
Avila University, Kansas City, MO
MBA in Logistics & Supply Chain Management
Institute of Business Management, Karachi, Pakistan

CERTIFICATION

Harvard Manage Mentor Program – Certificate of Skills Competence
Anti-Bribery & Fraud Professional Certificate – Compliance & Ethics Training
Morgen Consultancy – Certificate in Professional Soft Skills

PROJECTS

Sustainable Supply Chain & Environmental Initiative

- Organized a one-day workshop with the Sustainable Living Society on “Reduce, Recycle, Reuse,” supporting logistics sustainability and CSR objectives.
- Arranged cross-departmental teams to incorporate sustainable practices into supply chain processes.
- Evaluated logistics workflows and recommended environmentally responsible process improvements.
